Good morning,

We thought we completed our HUBB filing to include the certification on February 16, 2018. I received a message, while I was out of the office on Monday, that we missed our filing date. Today I logged in and confirmed that the filing shows locations ready for certification but no longer shows them as certified.

Aaron Neilson is our Vice President – General Counsel and is responsible for the HUBB certification. We have been running into some issues with his log in permissions on the USAC e-file systems. He was able to successfully get into the HUBB on February 16, 2018, and we thought the certifications were completed at that time. After speaking with Jane at USAC this morning, I had him attempt to get into HUBB and HUBB is no longer showing as an option, see the attached screenshot.

As a side note I did reach out and spoke with Sam Clark on February 16 about some other e-file issues specific to NLAD and the claims system. I believe he said Christian was the person to assist with those issues. I left a message for him but did not get a call back. I do not know if this HUBB issue is related or not, but wanted to mention that there was other work needed that could be related.

Can you please check his permissions to make sure he has access to both HUBB and 481 to certify as an officer? Please let me know what we need to do to make sure those filings are recognized as timely certified.

Thank you,

Michelle Owens
